RE: ML 49590-MP  
DOGM Permit S015083 (Red Chief Quarry)

Gentlemen:

I note that you were sent a letter on January 12, 2010, which contains a typographical error regarding the expiration date of ML 49590-MP. The permit in fact expired at the end of its term on January 31, 2010, (not January 31, 2020).

Since the permit is now expired it is incumbent upon Quality Building Stone to reclaim the mined land disturbances for which it is responsible upon the property. The mining disturbance appears to consist only of a small mining pad cut into a rock ledge along the northern boundary of the acreage contained within the permit. Quality Building Stone must reclaim the mining disturbance by regrading the mining pad into the contours of the surrounding natural terrain.

Failure of the Permittee to reclaim the mining disturbance is in breach of the terms and conditions of ML 49590-MP. Please perform the above requested reclamation work within the next thirty (30) days to avoid forfeiture of your reclamation bond.

If you have any questions in this matter please contact me at (801) 538-5152.

Thank you,

John T. Blake  
Trust Land Specialist
